BOARD ACTIVITY AUGUST 19-20 ATLANTA, GEORGIA

The State Transportation Board held its regularly scheduled meetings on August 19th & 20th. A total of 28 project lettings were approved for September totaling over \$155 million. During FY09, the Board approved lettings for 280 contracts valued at over \$533 million for projects across the 13 Congressional Districts. In addition to the full Board meeting on August 20th, four committees met in advance: Public Private Partnerships (P3); Legislative; Administrative; and Finance. Below are highlights of these meetings.

Board Members discuss financial issues during the August 20th meeting.

Public Private Partnerships (P3) - Assistant Treasurer Earl Mahfuz provided an overview of the recent progress made on Public Private Partnerships – or what is now called P3. In the past couple of months, the Department has established a steering committee for determining project parameters, has compiled a draft list of potential P3 projects for Georgia as now required by law, had an internal workshop with RBC and Nossaman. Additionally, Mahfuz confirmed that despite the economic downturn, there are still firms interested in investing in P3 projects. He also stated that the Department intends to hold an industry-wide forum for potential investors later this fiscal year.

Legislative - Commissioner Vance C. Smith, Jr., addressed the Committee, stating his commitment to a successful Legislative Session by preparing in advance. Commissioner Smith recommended presenting facts, meeting with the members of the Appropriations and Transportation Committees, and stressing funding requirements.

Commissioner Smith stated that the Department must carry the torch for funding in Georgia. Key emphasis should be placed on making sure transportation options meet the needs of citizens and businesses. He also recommended that we strengthen our existing relationships with Georgia's Congressional Delegation in Washington, DC.

Administrative - Chief Operating Officer Steve Henry presented a proposal on changing the Department's existing LOGO program. The current program contract expires on June 30, 2010. Each year, the Department receives \$3.25 million in revenue from the contract. Staff is recommending the Board consider a new fee structure and the addition of both pharmacies and RV friendly categories of signage. Several Board members requested additional information on the history and projections for the program. Additionally, it was questioned if the current vendor would consider renewing the existing contract for a 1-yr term. The Committee took no action.

Finance - Treasurer Kate Pfirmman advised the committee that \$30 million in de-authorizations had been realized, bringing the total to approximately \$190 million since the project implementation.

Kate Pfirmman reviewed the status of FY09. These figures are unaudited, but the Department ended the year with a balanced budget. There is an estimated surplus of \$577 million, but it is important to note that this figure includes Federal funds which could not be used without creating a larger motor fuel deficit. The Department also complied with Governor Perdue's mandate that each agency lapse funds back to the State Treasury - for GDOT, the amount was \$1 million, reducing our intermodal and data collections activities since it is regular state funds.

For FY 2010, the budget is being compiled based on the worst case scenario of the Governor's potential mandated cuts of 4%, 6% or 8%. Preparing for a required reduction of an additional 8% of State General Funds directly impacts the aviation, transit and data collections programs, and brings the total amended budget request is \$2.184 billion. The official request must be presented to OPB by September 30, 2009. The Committee will make a final review of the FY10 amended budget request in the September meetings.
